Catering

We have a fabulous team in our kitchen who create excellent food. You can start planning your food as soon as you book, although we do advise choosing your final menu around 6-9 months before the day. This means you will get the most current offerings available. Our team will plan a tasting so you know exactly what your menu will look like.

We need your final numbers at least 10 days before the day. This allows the team to ensure everything is exactly as it should be.

The team are fantastic at creating what you want, from a relaxed wedding breakfast, to fire-pits or full 3/5 course meals the team have something to suit everyone.

We also allow outside catering options although a small fee applies.
